**Give your child the best start!**

A priority is given to literacy and numeracy, with a range of programs designed to enhance students’ skills. Kindergarten children engage in the Jolly Phonics and Best Start programs, while older students have opportunities for public speaking and the Premiers Reading Challenge.

Teachers use a range of expert strategies to support development of literacy and numeracy. Accelerated Literacy is an integral part of our literacy programs whilst in numeracy students experience a 4 day cycle of content that has a real world context.

Emphasis is placed on developing the skills and knowledge that underpins all learning.

At Kemps Creek Public School we instil a love of lifelong learning in our students.

**Technology - the way of the future!**

With a strong focus on technology, the school is equipped with electronic whiteboards in every classroom. The access to computers to support learning develops the integration of computer skills in all curriculum areas, with secure, broadband internet access across the school.

**Small school, big opportunities**

At our school students learn in a stimulating environment and are encouraged to reach their full potential. We have:

- innovative and challenging learning programs
- highly qualified, skilled and dedicated staff
- a safe and nurturing learning environment, with a focus on social skills and Habits of Mind
- quality support programs with specialist staff
- learning programs that meet the needs of all students
- opportunities to develop life skills in leadership
- inclusive opportunities to participate in performing arts including dance and choir
- transition programs, including a play group

We belong to the Cowpasture Community of Schools, an award winning partnership of local schools with opportunities in sport, performing arts and leadership.

**A welcoming and supportive community.**

At Kemps Creek Public School we believe in developing strong relationships between home and school. Parents are invited to be active participants in our school community.

We have an active Parents and Citizens organisation that meets once a month. They actively participate in decision making for our school and often fund vital equipment and technology needs. Our modern school canteen is run by dedicated parent volunteers offering a healthy menu daily.

Parents receive regular information about school programs and activities through grade afternoons, parent teacher interviews, student reports, our weekly bulletin and our school website.

**Healthy and active students**

Participation in sport builds teamwork, confidence and leadership in our students. We provide physical education and access to a range of competitive and non competitive sports, as well as the Active Afterschool Program.

**A great place to make friends.**

Situated in the rural area of South West Sydney, and adjacent to farming lands, the school enjoys a picturesque setting and a strong connection to the natural environment. Our garden club is award winning and we are very proud of the connection we have with the land. With impressive school facilities, all classrooms are air-conditioned and the playground includes spacious grounds, a sports oval, covered play area, tennis court, play equipment and sandpit.
